

Mr. Guzmán is a graduate in petroleum engineering from the Universidad de America, he holds a PhD and a MS in petroleum engineering with an emphasis on mathematics from Stanford University.

With over 25 years of industry experience, he has held management and leadership roles in Ecopetrol and BP in Colombia, and ENI in Italy, Venezuela, Ecuador, and the United Kingdom, in both operations and field development. From 2019 to 2024, he served as President of Hocol S.A. and was a board member of Naturgas, ACP, and ANDI Regional Atlántico.

His recent achievements include establishing Hocol's business plan and evolving the corporate strategy to align with the Ecopetrol Group's goals. By implementing the strategy, he facilitated the growth and diversification of Hocol's portfolio by acquiring a stake in the Asociación Guajira contract and adding eight exploration blocks.
